IN THE SPECIFICATION

Please enter the specification as amended during prosecution of the international application PCT//IL97/00161 and published in the International Preliminary Examination Report for that application, a copy of which is included herewith.

IN THE CLAIMS

Please amend claims 7 and 9-10, 14 and 39 as follows:

- 7. (Amended) A polysaccharide sponge according to claim 1, wherein said sponge further comprises a cross-linking agent selected from the group consisting of the salts of calcium, copper, aluminum, magnesium, strontium, barium, tin, zinc, chromium, organic cations, poly(amino acids), poly(ethyleneimine), poly(vinylamine), poly(allylamine), and polysaccharides.
- 9. (Amended) A polysaccharide sponge according to claim 7, wherein said cross-linker is used in the form of a cross-linker solution having a concentration of cross-linker sufficient to provide a cross-linker concentration between about 0.1% to about 0.3% w/v in the final solution from which the sponge is obtained.
- 10. (Amended) A polysaccharide sponge according to claim 1, wherein said sponge is prepared from a polysaccharide solution with or without the addition of a cross-linker.
